(Received XXX and accepted XXX)

Abstract This is a sample text of a manuscript of a single-column style. We explain how to prepare a manuscript for the publication in the Science Reports of Kanazawa University, using the contents of the webpage “Guide for Authors.”

Keywords. Insert here keywords.

1 Introduction

The Science Reports of Kanazawa University was founded in 1951 for the publication of research contributions in mathematics and all areas of natural sciences. It carries original research papers by Kanazawa University’s current/retired faculty members and students including alumni. It is now published annually online by the Institute of Science and Engineering, Kanazawa University. All articles in Volume 54 (2010) and thereafter have been qualified by the refereeing system.

2 Editorial board

The editorial committee of the journal consists of professors from mathematics, physics, chemistry, biology, earth science and computational science. The current members of the committee are found on the webpage of the journal.

3 General Information for authors

At least one of the authors must be a Kanazawa University associate, either a current/retired faculty member, an undergraduate/graduate student or one who graduated from Kanazawa University or its graduate school.

Manuscripts should be submitted electronically to the editorial committee in PDF format. By submitting a manuscript, the authors acknowledge that it is original and has not being submitted elsewhere. Acceptance for the publication is based on the peer-review reports from referees nominated by the editorial committee. When a manuscript is accepted for publication after the refereeing process, the copyright of the manuscript is transferred to the Institute of Science and Engineering, Kanazawa University.

*Corresponding author Email: Insert here the E-mail address of the corresponding author unless it is given in the addresses of the authors.

4 Types of manuscripts

The Science Reports of Kanazawa University publishes original research in two formats: Articles and Letters. Articles represent complete studies and are not restricted in length. Letters are short manuscripts for prompt announcement and are restricted in length to the equivalent of five journal pages, including figures, tables and references. The authors should choose one of these types upon submission. The templates in LaTeX and Microsoft Word formats are found on the webpage of the journal, which can help authors to determine the manuscript length.

5 Manuscript Preparation

Manuscripts must be written in English and contain the following elements in the order specified below.

1. title
2. names of authors
3. affiliations, addresses and e-mail addresses
4. abstract
5. key words
6. body of the paper
7. references.

In order to prepare a manuscript, the authors are requested to use our Template in either LaTeX or Microsoft Word format. The authors can choose either a style of single column or double columns for their manuscript.

To insert figures or tables, the authors should notice that each figure must have a caption that includes the figure number and a brief description, preferably one or two sentences. The caption should follow the figure with the format “Figure 1. Figure caption.”

Each table must have a brief (one phrase or sentence) title that describes its contents. The title should follow the format “Table 1. Table Title”.

Here is a sample of a small size figure (table) inserted in the text. Also, a sample of a big size figure (table) is given below.

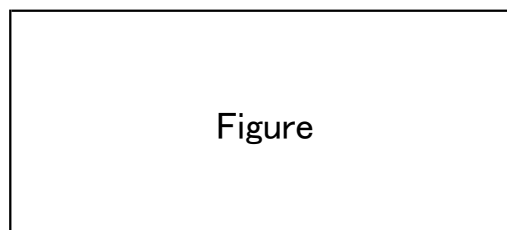

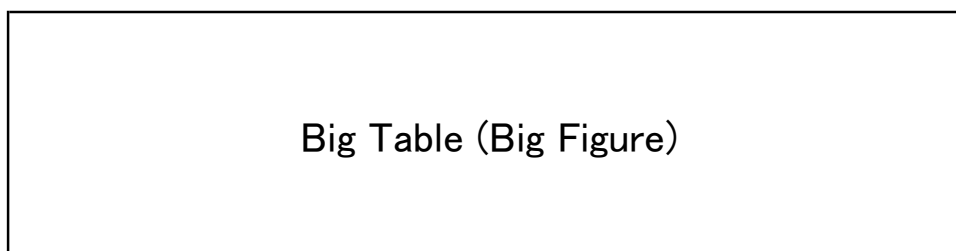

Figure 1: Insert here the caption of the figure

Table 1: Insert here the title of the table

The style of the references is not specified. The authors can choose their favorite style. An example of the style is found below.

6 Submission of a manuscript

To submit a manuscript, the authors must only send PDF file of the manuscript as an attachment of an Email to the editorial committee at the following address:

scirep@se.kanazawa-u.ac.jp

When the manuscript is accepted for publication, the authors will be asked for the source file of the final version of the manuscript and other necessary electronic data of figures and tables.

7 Contact

All communications concerning the journal should be addressed to

Editorial Committee, The Science Reports of Kanazawa University
Institute of Science and Engineering, Kanazawa University
Kakuma, Kanazawa 920-1192, Japan
E-mail : scirep@se.kanazawa-u.ac.jp

Acknowledgements

Insert the Acknowledgements, if any, between the body of the paper and references.
